ECA APPROVED PRODUCTS

Energy saving products are being developed in accordance with criteria set by the UK government in our test room, which has EN23953 standards, designed and accredited by the University of Bristol. Products with these criteria provide tax reductions to the user. A total of 24 of our products are on the ETL list, which gives our users a tax advantage.

MASTERCool

MASTERCool PRODUCTS are 100% ITALIAN
Our products are specifically created for commercial and professional refrigeration and give an excellent answer to all technical requirements and market demands. Their use for food processing purposes makes them adequate to satisfy the HACCP standards. The whole production is designed for environments normally very hot and humid kitchens and local communities.
